

Flutter Developer with 2+ years of experience developing and maintaining cross-platform mobile applications using Flutter and Dart. Experienced in building scalable mobile solutions, integrating REST APIs, implementing state management with GetX and Provider, and deploying applications on Android and iOS platforms. Hands-on experience in developing white-label applications, online examination systems, event management solutions, Firebase integration, push notifications, and Google Maps integration. Passionate about building user-friendly and high-performance mobile applications.

WORK EXPERIENCE

Flutter Developer

Conduct Exam Technologies LLP

September 2024 – March 2026

Responsibilities & Achievements

- Developed and maintained cross-platform mobile applications using Flutter and Dart.
- Integrated REST APIs and managed state using GetX for efficient performance.
- Successfully deployed applications on Google Play Store and Apple App Store.
- Built and optimized features for an "Online Exam Solution" app used by real users.
- Improved app performance and code quality by refactoring existing codebase.
- Collaborated with backend developers, QA testers, and product managers in agile environment.

Flutter Intern

Conduct Exam Technologies LLP

April 2024 – September 2024

- Learned and implemented Flutter fundamentals to build responsive UI.
- Worked with REST APIs, Firebase, and local databases like SQLite.
- Assisted in developing features and fixing bugs in live projects.
- Gained hands-on experience with state management, version control, and mobile application deployment processes.

SKILLS

Flutter, Dart, Android, Java, GetX, Provider, Firebase, Firebase Authentication, Firebase Cloud Messaging (FCM), Google Sign-In, SQLite, REST APIs integration, Third-party API integration, Git, GitHub, GitLab, White-label Applications, App Deployment, Responsive UI Development, Debugging & Performance Optimization.

PROJECTS

Online Exam Software - CE

Developed a comprehensive white-label online examination application that enables students to take tests and exams on mobile devices. Implemented features such as section-wise timers, automatic test submission, instant result generation, performance analysis, question bookmarking, study materials, PDF and video learning resources, Face Login authentication, and push notifications. Integrated REST APIs and Firebase services to ensure seamless data synchronization and secure exam workflows across Android and iOS platforms. Technologies: Flutter, Dart, GetX, REST APIs, Firebase Authentication, Firebase Cloud Messaging (FCM).

Event Management System

Developed a mobile application for managing events, sub-events, and task assignments, enabling teams to efficiently coordinate event operations. Implemented secure user authentication, role-based workflows, task tracking, and Google Maps integration for event location management. Built scalable and maintainable application architecture using Provider state management, reusable UI components, and REST API integration to streamline event planning and execution. Technologies: Flutter, Dart, Provider, REST APIs, Google Maps.

EDUCATION

Atmiya University, Rajkot | 2021-2024

Bachelor of Science in Information Technology
